INVITATION

Welcome to Europerio 7 in Vienna!

Dear friends and colleagues,

It is a great honour for the Austrian Society of Periodontology to be entrusted with organizing Europerio 7, the world’s leading conference in Periodontology, by the European Federation of Periodontology. I would like to invite you to Vienna, the capital of Austria, as our partners.

Vienna, situated in the center of Europe, is a preeminent city as it combines the character of a modern city with tradition-based values. Particularly, it is considered a safe, clean, and an environmentally green city. Vienna has good reasons to be first out of the Mercer’s Quality of Living ranking 2009, which covers 215 cities worldwide and is conducted to help governments and major companies place employees on international assignments.

Vienna has built up a long tradition as a major conference site and thus has gained a remarkable reputation as a congress city. Providing all the necessary infrastructure and professionalism required to successfully organize premium scientific events, it ranks at the top among the leading congress destinations of the world. Europerio 7 will take place at the Reed Messe Wien Exhibition & Congress Center, which is located only a few minutes away by public transportation from the historic city center. The venue is a new, modern building that offers an auditorium perfect for the scientific program as well as plenty of well-organized space for our industrial partners to present their concepts and products.

Europerio 7 takes place from June 6 - June 9, 2012. Reserve these days in your calendar to be part of this worldwide recognized congress of periodontology!

The organizing committee is already working intensively on this ground-breaking conference with the help of surveys conducted with congress visitors, society members, and industrial partners in order to offer the latest scientific research results and knowledge focusing on practical use with regard to the fields of periodontology and the use of dental implants.

We are certain that this will be a memorable and enjoyable meeting and look forward to your participation at the Europerio 7, 2012 in Vienna!

The European Federation of Periodontology – EFP

EFP Vision & History

The Driving Force of Periodontology in Europe
Inspirational, Innovative, Influential

The EFP, founded in 1991, is one of the largest dental organisations in Europe currently with 25 National Periodontal member Societies. Periodontology encompasses the study and treatment of diseases and disorders of the supporting tissues of the teeth, including the gums and bone. Although the most common are gingivitis and periodontitis, there is a large number of other conditions that need to be recognised and managed. Periodontology has also played a key role in the development of Implant Dentistry, both from a research and clinical perspective. The EFP is justly proud of the achievements of many of the researchers and clinicians who are members of the Constituent Societies and who have made highly significant contributions to Periodontology and Implant Dentistry.

The official journal of the EFP, the Journal of Clinical Periodontology, is one of the most respected dental journals in the world. The EFP has worked extensively to promote education and training at the predoctoral (undergraduate) and postdoctoral (postgraduate) levels. Periodontology is recognised as a Specialty in many member countries and the EFP is dedicated to promote this status throughout all member countries.

The EFP holds a large international meeting every 3 years when all of the National Societies come together to learn about the latest advances from world-renowned speakers.

Conference Venue

Reed Messe Wien Exhibition & Conference Center
Messeplatz 1
1021 Vienna
Austria

Situated right on the edge of Vienna’s inner city, the Reed Messe Wien Exhibition & Conference Center is located in the very heart of the famous ‘Prater’ recreational area. It is a mere 30 minutes away from Vienna International Airport, and the historical city centre can be reached within 15 minutes via metro. About 70 airlines from 176 destinations fly to Vienna on a regular basis; in addition, Vienna is easily accessible via road, railway or ship from all across Europe.

The Reed Messe Wien Exhibition & Conference Center offers not only vast exhibition space and numerous meeting facilities, but also break-out rooms as well as common areas for interaction, and coffee break areas which can be used in a number of combinations, depending on the capacities required.

Its outstanding architecture, high-quality furnishings and state-of-the-art equipment makes the Reed Messe Wien Exhibition & Conference Center a most advanced venue and all elements work together to create the perfect setting for this conference.

Sponsoring Packages
